THE SENTENCE

2 START WITH THE SENTENCE

ICP: **companies that spend the most on electricity.** Not an industry. Not a headcount range. A behavior with a number attached.

one clear sentence before any tool opens

SWIPE →

THE SOURCE

3 FIND WHERE THE NUMBER LIVES

Public spend records. Governments publish who spends what on utilities in several markets. **The list ranked itself.**

spend records • published, free, current

SWIPE →

THE ACCOUNTS

4 TURN RECORDS INTO ACCOUNTS

Clean the entity names, dedupe,
match to domains, **rank by spend**.
Top of the list first.

records → domains → ranked accounts

SWIPE →

THE PEOPLE

5

FIND THE OWNER OF
THE BUDGET

Titles that own facilities, operations or energy cost. Enrich the contacts (Apollo, FullEnrich), verify every address (ZeroBounce). **Unverified doesn't ship.**

enrich • verify • ship

THE FIRST LINE

7

THE OPENER CARRIED
THE FIGURE

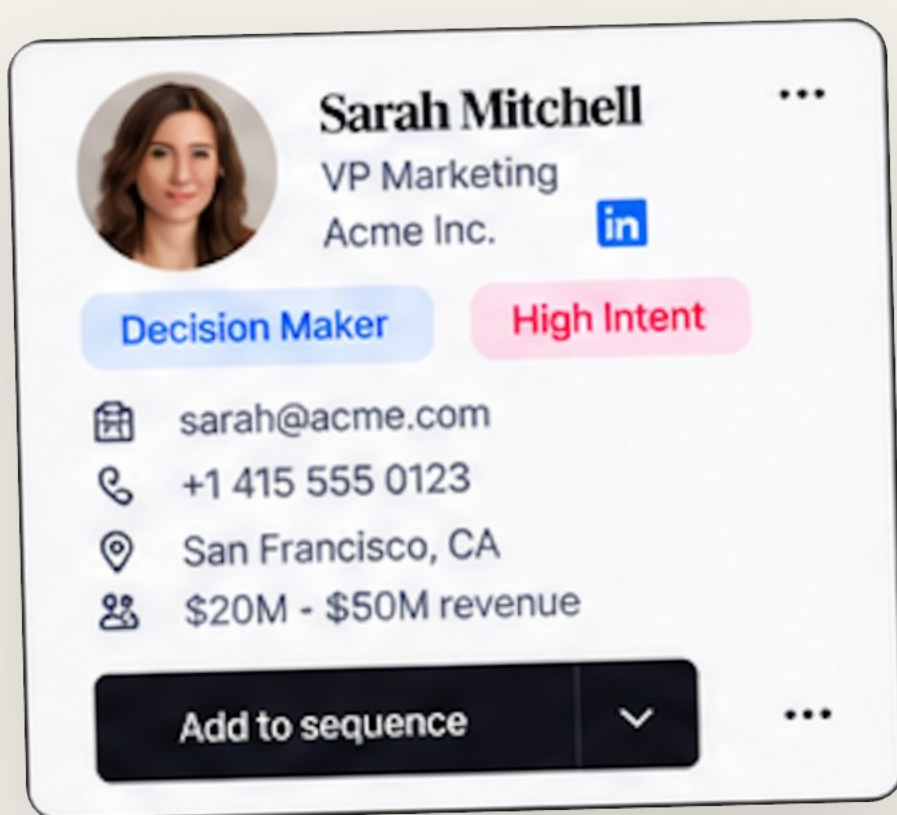

No paragraph explaining why electricity costs matter to someone who pays them. **The number did the explaining.**

a prospect who knows the bill needs no warm-up**SWIPE →****Tanyo Gochev**

A DATABASE TELLS YOU WHO EXISTS. A PUBLIC RECORD TELLS YOU WHO HAS THE PROBLEM AND HOW BIG IT IS.

One clear ICP sentence, then go find where its number lives.

sourcing • not a channel story
